SUMMARY

Passionate Software Engineering student with a strong foundation in object-oriented programming, data structures, algorithms, and full-stack development. Experienced in building AI-powered applications and eager to contribute to scalable software solutions through innovation and continuous learning.

EDUCATION

CMR College of Engineering & Technology, Telangana

B.Tech in AI & ML (9.39 CGPA)

Aug. 2024 – Present

Narayana Junior College, Hyderabad

MPC (96.2%)

May. 2022 – May. 2024

PROJECTS

Edu Reach – AI-Powered Education Assistance Platform | React.js, Node.js, Express.js, MongoDB, APIs

- Developed a full-stack web platform to help students access educational resources and career guidance.
- Integrated AI-powered chat and voice agents to provide interactive learning support and student assistance.

AI-Based Phishing Website Detection System | Python, Machine Learning

- Developed a machine learning model to identify phishing websites using URL features.
- Worked on data preprocessing and ML model training.

AI Social Media Automation Workflow | n8n, APIs

- Created automation workflows using APIs for social media tasks.
- Gained hands-on experience with workflow automation and integrations

TECHNICAL SKILLS

Programming: Python, C++, Java

Web: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Database: SQL, MongoDB

AI/ML: Pandas, NumPy, Scikit-Learn, Machine Learning

Tools: Git, GitHub, VS Code, Postman, n8n

Concepts: DSA, object-oriented programming, Problem Solving

ACHIEVEMENTS & ACTIVITIES

- Solved 150+ DSA problems on Leet Code and Code Chef.
- Selected among Top 20 teams in a Hackathon for presenting an AI-based Baby Cry Analysis System.
- Built automation and AI-based mini projects using Python, APIs, and workflow tools.
